The book 'Birds of Goa' was released recently by the Goa Tourism Development Corporation (GTDC). The minds behind the book, Bikram Grewal and Savio Fonseca, say that the book documents every species of birds found in the state. The launch also featured a presentation on the prospects of avi-tourism in Goa. GTDC managing director, Nikhil Desai who supported the making of the book, said that it is important to treat avi-tourism with utmost importance as it is a niche area of tourism. The book aims to work as an aid to birders and in organising bird trails.
